

Fact Sheet

- GREEN** - Our containers can last a lifetime. The container recycling institute estimates less than 20% of plastics are recycled - the rest end up in our streams, rivers, oceans and landfills.
- SAFE** - No need to worry about harmful chemicals from plastics (*Antimony, BisphenolA, Phthalates*) leaching into your food or beverage.
- ECONOMICAL** - Our containers are built to last ... No need to replace every couple of years as with plastic.
- NO PLASTIC TASTE** - Stainless steel liner protects the taste of your fine food or beverage.
- CUSTOMIZED** - Our containers can be customized to your specifications.
- IN COMPLIANCE** - With the U.S. Department of Health and National Sanitation Foundation.
- DURABLE** - Triple wall construction with solid insulation for maximum durability.
- VERSATILE** - Wide mouth carriers can be used for food or beverages hot or cold.
- SAFER HANDLING** - No need to worry about spilling hot beverages or food with our air tight containers.
- SELF-DRAINING** - Beverage containers drain to the last cup with out tipping.
- NO DRIP** - We feature custom designed No Drip Faucets.
- EASY CLEAN-UP** - All stainless steel construction cleans up fast.
